

Dustbane DB Do All

PRODUCTIVITY

Huge tank capacity in minimum external space, solution control with automatic stop, extensive running time at 12V, water reusable system and brush control with automatic delayed stop.

PERFORMANCE

Center flow system, constant weight system, easy brush angle adjustment, high quality and performance vacuum motor, maximum watertight in recovery tank, siphon to avoid water drip and exclusive squeegee system assures high performance at low cost

DURABILITY

Tanks and surrounding body in high density polyethylene, panel control switches protected against water and humidity. Squeegee system designed to absorb harsh impact.

10 + 3 + 1 = WARRANTY

Technical Data

Scrubbing width	450 mm
Suction width	730 mm
No. Brushes	1 (disc)
Solution tank capacity	25 L
Recovery tank capacity	25L
Power Supply	12V
Battery	80 Ah
Weight (net)	45 kg
Length	1090 mm
Width	525 mm
Height	950 mm
Decibel	68 dB (A)
Code	19337

LOW MAINTENANCE COST

Inlet and outlet filters for maximum solution tank protection, brush replacement without tools, Squeegee blade can be used on 4 sides before replacement, Squeegee assembly and blades replacement without tools, front cover can be tilted hoses removable without tools, battery removable without tools, easy access to internal compartments and easy access to electric compartment.

USER FRIENDLY

Great manoeuvrability thanks to an optimum weight distribution, designed to assure minimum noise levels, great visibility while working, adjustable handle bar, easy to use control panel, extractable solution tank and recovery tank, easy to fill and empty, easy to transport, drinks and objects holder, optional rear and front waste bins, Tissue roller holder, Battery level indicator, on board charger can be fitted also at a large stage and external battery charger plug.
