

Propane High-Speed Burnisher

Propane High-Speed Burnisher

ELECTRIC CLUTCH

EMISSION GUARD

CATALYTIC MUFFLER

EASY TO USE

Handle easily adjusts to operator's height. Adjustable head pressure. Tank changes made easy with quick snap fastener and drop-in holder.

PRODUCTIVITY

Powerful engines maintain speed under heaviest loads. Super grip pad driver face reduces pad expansion and increases pad life. Large propane tank provides more working time between refills.

SAFETY

Super clean catalytic converter aids in improving air quality. 80% safety fill tank reduces damage to propane system components from overfilling. Low oil alert system protects engine.

Technical data

Model	21"	24"	27"
Engine	13 HP	13 HP	17 HP
Starting System	12V Battery	12V Battery	12V Battery
Burnishing Path	21"	24"	27"
Ignition Systems	Electronic	Electronic	Electronic
Fuel Tanks	20 lbs	20 lbs	20 lbs
