Floors	1:7 – 1:10
Other uses	1:5 – 1:10

Note: Adjust rates to suit your cleaning needs.

Washroom Care: Spray solution and allow foaming action to work on hard soap film converting it into a water soluble solution. Scrub, then remove solution and rinse with clear water.

Floors: For best results, allow solution to remain on floor in a wet condition for 3 to 5 minutes. For severe build-up, the use of a scrubbing machine or a stiff bristle brush may be necessary. Scrub, then remove solution with a floor squeegee, wet vacuum pick-up or mop. Rinse with clear water.
