Mr. Allan Foley
Dustbane
Regional Sales Representatives
Atlantic Region
25 Pickering Place
Ottawa, Ontario
K1G 5P4

Dear Allan,

We have been using the Dustbane Environmental Choice certified line of cleaning products for the past year, and we have found the products to be very effective in their performance and also cost effective.

As a result of this we have introduced the line of products to some of our clients and as a result of this all the SNC Lavalin ProFac facilities in New Brunswick are now using "Green products" in their facilities, also along with Dustbane we have implemented this line of product to many of our clients, the feedback has been good and the support from our Dustbane representative has been outstanding.

If you are thinking of switching to Environmental Choice products I would highly recommend that you contact a Dustbane representative, the results will speak for themselves.

Sincerely,

Mike Brewer
General Manager
